Enrollment deadline: February 19, 2021

Online Distance Learning Program

The El Dorado Union High School District is planning on offering a full-time distance learning program for the 2021-2022 school year. Families who preferred distance learning or still have health and safety concerns may prefer this opportunity instead of enrolling in our traditional in-person programs. Distance learning may require more parental engagement and monitoring than traditional schooling.

ON-CAMPUS COURSE ENROLLMENT

The expanded distance learning program is being offered to provide families with the opportunity to limit social contacts to mitigate viral transmission. Therefore, students selecting this program shall not be enrolled in on campus in-person courses.

ASSESSMENTS:

Teachers are assessing students via the Learning Management System, Google Classroom. Electives are assessed in either APEX or Edgenuity.

GRADING:

Students shall be assigned letter grades.

Curriculum:

Students receive teacher created content using Google Classroom as the learning management system for English, Mathematics, Science and Social Science courses. Teachers will utilize Board adopted curriculum, supplemental resources, and online tools to communicate with students including video postings, live webinars, and video conferences.

Students wanting AP English, AP History, or AP Mathematics courses would do so using the APEX or Edgenuity platforms. Parents may want more personalized instruction in AP programs, but the District has limited resources. Contact the Educational Services Office regarding questions about AP offerings.

List of Teacher Led Courses:

- English 1, English 2, English 3, English 4
- Algebra 1, Geometry, Algebra 2, Precalculus
- World History, US History, Economics, Government
- Earth and Space Science, Biology, Physics

For all other courses, students will have the opportunity to select from Board approved APEX or Edgenuity courses. Edgenuity is a video based learning platform, whereas APEX is text based. Print packet options will not be provided. A teacher facilitator will monitor student progress in APEX or Edgenuity.

Students in need shall be provided Chromebooks and hotspots. Students will have up to five different teachers (English, mathematics, science, social science, and an elective teacher).

Athletics/Extra-Curricular Programs:

Students remain enrolled at their school of residence participating in the Online Distance Learning Program. Students are eligible to participate in athletics or after school extracurricular activities affiliated with the school following school procedures and regulations.

Questions? Please contact your school counselor and return completed attached application to your school counselor as well.
