

Important Message

YES - We are open!

As a health care facility, we have chosen to keep our shelter and clinic open. During this time of tension, anxiety, and uncertainty, our therapy services and shelter are needed more than ever. If your child is experiencing additional anxiety or stress during this time period, please

note that our services are open for you.

We also want you to know that we are doing everything that we can do to minimize any health risks. The youth and family we serve and our staffs' health and safety are of utmost importance to us.

To be certain we do not disrupt care and to maximize the safety to all our clients and staff, we have implemented the following precautions:

- If you have an appointment with us, we can use teleconferencing for therapy, supervision and other meetings.
- We ask that if you have an appointment at the clinic, and you are running a fever, we encourage you to reschedule with a teleconference.
- We will practice reasonable social distancing at the office and avoid shaking hands.
- We ask that you wash your hands prior to your appointment and please keep your phone in the car or purse after washing your hands.
- We are sanitizing all areas (clinic and shelter), common area surfaces, door handles and running our air purifier.

Sincerely,
New Morning Youth & Family Services
