

Innovate...Inspire...Teach...Learn!

Christopher A. Moore, Assistant Superintendent Educational Services

COVID-19 School Closures EDUHSD 9th Grade Placement Policy

1. Middle school teachers will use the initial placement they approved during middle school registration in January/February as a guide to placement for next year.
2. Middle school teachers should use the first 2 trimester grades as placement requirements instead of all 3 trimester grades.
3. Middle school teachers should identify students who were on the border of moving to the next math level or repeating their 8th grade course after the second trimester, and use the current distance learning information/effort to help determine the final student course placement recommendation.
4. Middle school teachers are NOT to use any EDUHSD Math finals or parts of any EDUHSD Math finals for distance/online learning, end of the year assessments/finals, or any other type of assessments to ensure test question security for the following year.
